# Table of Contents

---

1. WEBSITE..... 8

2. LMS SYSTEM..... 9

# 1. WEBSITE

---

The Q-SER website was registered at Intracom's accounts and is hosted under the domain:

[q-ser.org](http://q-ser.org)

The used platform for generating and updating the website is:

[www.q-ser.org](http://www.q-ser.org)

which offers the basic needed features like multi-language and HTML5. Beside of this many marketing, reporting- and management-tools are embedded which makes the update, change and collaboration between different admins easy.

## 2. LMS SYSTEM

---

An analysis for different LMS systems was done by ICOM, in order to determine the currently best of breed solution. ICOM and the consortium partners decided to use Moodle LMS because of the following features:

- Easy to use
- Multi language (espec. Greek)
- Embedding of scorm formats and other (video, PPT, etc.)
- Embedded gamification

A test account is created to be used by national authorities. The link is:

<http://lms.q-ser.egaleo.gr/moodle/>

For all language courses option:

Username: qsertestuser

Password: Qsertestuser1!
